TERMS AND CONDITIONS OF SALE

Price

Prices quoted in the list are net ex-our or our distributor's warehouse. These prices are ruling at the time of printing are subject to change without prior notice. The sellers reserve the right to accept the order at their own discretion and to invoice the goods at the prevailing prices on the date of despatch.

Order Placement

Order must specify Product code & Pack Size
Standard Packing for Solvent: 20x500ml 4x2.5L
Standard Packing for Acid: 8x500ml 4x2.5L 2x5L
Hydrogen Peroxide Solution: 20x500ml 20x1L

Minimum Order

All orders of invoice value of Rs. 25000/- (after discount & GST) and above are offered F.O.R destination station by Road Transport. Goods for invoices valued less than Rs. 25000/- will be sent on "Freight to Pay" basis

Bulk Requirements

Special prices will be offered for Bulk packs & large quantities. The delivery period in such cases will be at least 1-2 weeks

Amendment & Cancellation

No amendment or Cancellation of order will be accepted once the goods have been packed or despatch.

Taxes & Duties

The prices are inclusive of central excise duty/Edu. Cess wherever applicable Sales Tax, Central Sale Tax, GST, Octroi or terminal tax, entry tax or such state levies will be charged extra as applicable at the time of supply.

Force Majeure

Notwithstanding whatever contained herein, in the event due to the reason beyond over control such as riots, strike, civil commotions, shortage of raw material, act of God, Government restriction etc. we are prevented for making supplies, we or our authorised stockist will not be liable or any penalisation for delay or non-supply of the items

Insurance

Consignment can be insured at buyers request and at their cost, if instructions in this behalf are received with order. Insurance charges are normally 1.5% on non-dangerous and 3% on dangerous products

TERMS AND CONDITIONS OF SALE

Delivery

While every efforts will be made to adhere to delivery dates, no responsibility is and will be accepted for non delivery or for delayed delivery. Items offered are subject to the goods being in stock on the date of receipt of order.

Road permit where ever applicable should accompany the order, failing which the order will not be executed till such time the same is recovered.

Breakage & Shortage

The goods are packed with utmost care. Our responsibility however ceases as soon as the consignment leaves our warehouse. Claim if any loss, damage, breakage or delay in transit will not be entertained by us. Buyer's are advised to refer such claims to the carriers or insurers.

Note

All chemicals enlisted in the Price list are for the LABORATORY USE ONLY. No responsibility is accepted if these items are used for House Hold uses or other applications or for an accident or loss due to mishandling.

We solicit your enquiries for other than listed items.

GRADES OF PURITY

ANALYTICAL REAGENT (AR)

Our Product range covers many AR Products conforming to the highest international standards for analytical and research work of the most responsible character. The trace impurities in these Products are restricted to the lowest possible limits for the utmost precision in laboratory work. We have designed a lot of products IP, BP, USP, EP to fulfill the requirements of Pharma Industry.

FOR BIOCHEMISTRY

Highly Purified Reagents for use in Biochemical research and analysis. They are free from inhibitors such as traces of heavy metals and tested with a view for Biochemical work.

FOR MICROSCOPY

Microscopy stains are standardised by UV spectrum and controlled by TLC. They correspond normally to the specifications given in H.J. Conns Biological Stain (1977).

PURE & PURIFIED

Purified Commercial Products used in many chemical laboratories.

FOR SYNTHESIS (LR & EP)

General purpose reagents used in many potential applications in chemical laboratories, careful control ensures that a consistently high defined quality is maintained throughout.

DIAGNOSTIC REAGENTS

These are specially produced for the use of various hospitals, clinical and pathological laboratories for diagnostic purpose.

BULK PACKS

To address manufacturing and product purification need, AVARICE offers economical, environment friendly and transport worthy. Bulk packing from 25kg to 50kg & 25Ltr to 200 Ltr.

- ✓ Batch to batch consistency.
- ✓ Environment friendly packing.
- ✓ Internal 5kg & 1kg bag packing available.
- ✓ Commonly used chemicals available in bulk packs.

LABEL SPECIMEN

LABORATORY REAGENT

Specifications:
 A clear colorless liquid
 Assay(G.C) Min 99.0%
 Wt. per ml at 20°C 0.899-0.901 g
 Refractive index (n_D²⁰) 1.371-1.373
 Boiling Range (76-78°C) Min 95.0%
 Acidity (CH₃COOH) Max. 0.05%
 Non volatile matter Max. 0.005%

AVARICE
EVOLVING WITH CHEMISTRY

Ethyl Acetate

C₄H₈O₂ = 88.11

Product Code: 01188

ISO 9001:2015 CERTIFIED COMPANY

Packed for servicing industry (including industrial quality control laboratories, academic and research institutions university etc.)

IMPORTANT: No liability accepted for accidents arising while handling or use.

FOR LABORATORY USE ONLY.

FIRST AID

ACCIDENTS CAUSED DUE TO ACIDS

BODYBURNS

Wash with plenty of water first and then with Sodium bicarbonate solution. After wash, apply a paste of Sodium bicarbonate - Petroleum jelly mixture on the burnt part for 10-15 minutes. Again wash with plenty of water and apply Carron oil (Anequal quantity of Lime water and Linseed oil).

SPILLAGE IN THE EYES

Wash with plenty of water first and then with 2% Sodium bicarbonate solution followed by water again. Wipe out the water from your eyes and then put 2-3 drops of Olive oil.

SPILLAGE ON CLOTHES

Use dilute Ammonia solution to neutralise the acid. Then wash with plenty of water.

ORAL INTAKE

Gargle with water first and then drink atleast 1 litre of milk or water followed by lime juice.

ACCIDENTS CAUSED DUE TO ALKALI

BODYBURNS

Wash with plenty of water first and then with Boric acid solution. Make a paste of Boric acid, apply on the burnt part and after 10-15 minutes wash it off.

SPILLAGE IN THE EYES

Keep open the eyelids and wash with plenty of water first and then with dilute Boric acid solution (0.5%). Again clean your eyes with water. Wipe out the water and then put 2-3 drops of Olive oil.

SPILLAGE ON CLOTHES

Neutralize the alkali with dilute Acetic acid solution (3%). Then wash with plenty of water.

ORAL INTAKE

Gargle with water first and then drink at least 1 litre of milk or water. Eat oranges.

BURNS CAUSED BY BROMINE

Wash the burnt part with either Alcohol or Petrol and then apply Olive oil.

BURNS CAUSED DUE TO FIRE

Apply either Petroleum jelly or Burnol on the burnt part.

WOUNDS

First remove any foreign particle (like glass pieces etc.) from the wound. Clean well with water and apply Tincture iodine, put a bandage and seek medical attention.

GENERAL ADVICE

- For severe burns caused due to acid keep the burnt part in Sodium bicarbonate-Petroleum jelly mixture and for those burns caused due to alkali, keep in the Boric acid solution for at least half an hour.
- While packing compounds of Cobalt, Chromium, Cadmium, Bismuth, Barium, Lead, Tin etc., it is necessary to wear the respective safety equipments /guards (like gloves, goggles, face mask etc.). In case these chemicals are accidentally consumed, try to spit it out even by vomiting.
- While packing Formaldehyde or Hydrogen peroxide, if it falls on the body or clothes, wash with plenty of water.
- If Copper Sulphate is consumed accidentally, drink a cup of warm water containing a spoon of Sodium chloride or Zinc sulphate.
- It is the duty of every one to ensure that chemicals do not come into contact with the body through their mouth, eyes, ears & nose. Also ensure that the necessary safety equipments are used.
- After providing first aid, seek medical attention, if necessary.

FIRE

- Do not use water to extinguish an electric fire as it could give you a shock. Use dry powder fire extinguishers.
- If solvents lighter than water (like Xylene, Benzene, Acetone, I.P.A., Methanol, Petroleum ether, Diethyl ether etc.) catch fire, use wet blanket to cover the fire or use a suitable fire extinguisher. Splashing water on such fires could spread the flame. Be familiar with the usage of various types of fire extinguishers.

HAZARD SYMBOLS

FLAMMABLE

Hazard: 1. Spontaneously flammable substances.
2. Highly flammable gases
3. Substances sensitive to moisture
4. Flammable liquids (with flash Points below 21°C)
Caution: Store in cool places. Keep away from open flame, source of heat and sparks.

EXPLOSIVE

Hazard: This symbol designates substances which may explode under definite conditions.
Caution: Avoid shock, friction, sparks and heat.

TOXIC

Hazard: These substances are very hazardous to health when breathed, swallowed or in contact with the skin and may even lead to death.
Caution: Avoid contact with the human body and immediately consult a doctor in cases of malaise.

CORROSIVE

Hazard: Living tissues as well as equipment are destroyed on contact with these chemicals.
Caution: Do not breathe vapours and avoid contact with body and clothing.

IRRITANT

Hazard: This symbol designates substances which may have an irritant effect on skin, eyes and respiratory organs.
Caution: Avoid inhalation and direct contact with the body.

HARMFUL

Hazard: Inhalation, ingestion and continuous exposure of skin by these chemicals is harmful.
Caution: Avoid inhalation and direct contact with human body.

OXIDISING

Hazard: Oxidising substances can ignite combustible material or worsen existing fires and thus make fire-fighting more difficult.
Caution: Keep away from air and moisture.

DANGEROUS FOR THE ENVIRONMENT

Hazard: Certain substances which liberates in to various aquatic and non-aquatic environment causing damage to one or more components of atmosphere.
Caution: Depending on the risk potential do not allow to enter sewerage systems, soil or environment. observe special disposal regulation.
